# C.O.T. SHOWCARS

[www.showcarrental.com](http://www.showcarrental.com)

Showcar Rental started business in February of 2005. Response has been fantastic and we have expanded our inventory of C.O.T., Busch and ARCA show cars.

We currently have multiple Chevy Impala SS, Dodge Charger, Ford Fusion and Toyota Camrys. Plans are in place to add two additional cars by February 2008. If you have special needs for other kinds of cars, equipment or props, please give us a call.

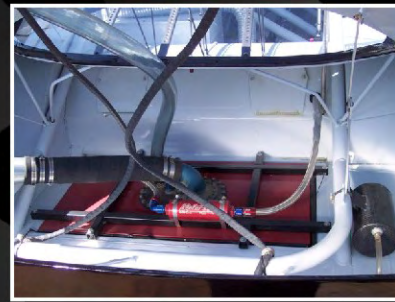

Showcar Rental prides itself in building a car that not only looks like the real deal the outside, but inside as well. All of our cars are detailed to the max and ready to run...not roll! They are built for mobile marketing displays or action production shots used in commercials and films. All cars are "A" background quality. All are built on real race chassis and have completely fitted interior compartments. Cars are available for ten, six, three or one month rentals. Weekly programs are available depending on inventory. Cars come painted with a white or black base. Custom paint and decal sets or wraps are available at extra cost.

Transportation is available for initial delivery or breakdowns. Deposits required to guarantee delivery dates.

Call Bruce Cooper or Bill Rhine at 704.746.8125.
